Office of the
Director of Finance

December 8, 2020

Citizens of the City of Milford, Connecticut
Honorable Mayor
Members of the Board of Aldermen
Members of the Board of Finance

The Comprehensive Annual Financial Report of the City of Milford for the fiscal year ended June 30, 2020 is hereby submitted. This report was prepared by the City's Department of Finance in conformance with generally accepted accounting principles (GAAP) for governmental units as promulgated by various authoritative bodies through their publications, statements of position, and other pronouncements. These bodies include the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants, and the State of Connecticut Office of Policy and Management. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. We believe the data, as presented, are accurate in all material respects and are presented in a manner that presents fairly the financial position and results of the operations of the City as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The City of Milford is required to undergo an annual federal single audit in compliance with requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Information related to this federal single audit, including the Schedule of Expenditures of Federal Awards and the independent auditors' reports on compliance and internal controls are included in a separately issued federal single audit report.

The City of Milford is also required to undergo an annual state single audit in conformity with the provisions of the State of Connecticut's Single Audit Act (C.G.S. Sections 4-230 to 4-236). Information related to this state single audit, including the schedule of state financial assistance, findings and recommendations, and auditors' reports on the internal control structure and compliance with applicable laws and regulations, is included in a separately issued state single audit report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Milford's MD&A can be found immediately following the independent auditors' report.

The financial reporting entity (the government) includes all the funds of the City of Milford. The government provides the full range of municipal services as directed by State statute and the Charter of the City of Milford. These include police and fire protection, parks and recreation activities, street construction and maintenance, wastewater treatment, planning and zoning, health and social services, education, and general administrative services.

PROFILE OF THE GOVERNMENT

The City of Milford was founded in 1639 and covers a 23.5 square mile area on Long Island Sound at the mouth of the Housatonic River. The City lies almost equidistant between the cities of New Haven and Bridgeport. Contiguous to the towns of Stratford, Shelton, Orange, and West Haven, Milford is the fifth largest community in population in New Haven County and eighteenth in population size of the State of Connecticut's one hundred and sixty-nine cities and towns. Primarily a residential community, Milford's population is 54,047 (2014-2018 Census Survey). Milford is served by many transportation facilities. Interstate 95 has seven Milford entrances/exits and Connecticut 15 (Merritt/Wilbur Cross Parkway) has two entrances/exits. U.S. 1 plus Connecticut Routes 121, 162, and numerous local roads and streets also serve the City. Inter-city passenger bus service is provided by Connecticut Transit and interstate service is provided by Greyhound. The New Haven Line, Amtrak and Metro North (Conrail) provide four east/west passenger/freight rails and two north/south freight rails. Passenger trains stop daily going to and coming from New York's Grand Central Station. Two airports serve Milford; Sikorsky Memorial Airport and Tweed-New Haven Airport.

Milford has a Mayor-Board of Aldermen form of government. The Mayor and fifteen Aldermen are elected each odd-numbered year. The City's Charter guarantees representation by more than one political party, with no more than ten (10) aldermen from the same party. The legislative function is performed by the Board of Aldermen. The budgetary process involves sequential recommendations by Department Heads and Boards and Commissions, the Mayor, and the five (5) members Board of Finance, with the final budget set by the Board of Aldermen. The Director of Finance, who is included under Civil Service, administers fiscal matters.

The City provides a full range of services including schools; police and fire protection; maintenance of highways, streets and other infrastructure; recreational activities and cultural events; sanitation and health services; human services; and General Government, Administrative, and Community Development Services.

ECONOMY AND FACTORS AFFECTING FINANCIAL CONDITION

Milford is in a region with a diverse economic base. Residents' income is derived from education and health services organizations, manufacturing, professional and administrative services and retail industries. The 2018 census data shows that Milford's median family income was \$113,143, compared to the State's \$97,310, and the median age of a Milford resident was 45.4 years.

The City's unemployment rate was 5.8% through October 2020 as compared to the State of Connecticut at 5.8%. The increase in the unemployment rate from 3.2% to 5.8% over the past year is reflective of the current economy.

The City's tax base is stable with some moderate growth. The net taxable grand list of October 1, 2019 was \$6.7 billion which represents an increase of \$82 million over the grand list of October 1, 2018. This was primarily due to residential and commercial new construction. The top ten taxpayers have been relatively stable over the past two years and represent 7.4% of the grand list.

Milford continues to see signs of growth and progress. Shoreline homes continue to be rebuilt, new multi-family residences are being constructed, and new businesses are being added which should help to increase the grand list going forward. Out of 169 municipalities, Milford ranked ninth in the State of Connecticut and first in New Haven County. Grand list growth has allowed Milford to reduce taxes for five consecutive years furthering small to mid-size business growth.

The ongoing impact of COVID-19 has materially affected local, state, national, and global activity and increased public health emergency costs. Milford has been working closely with the State of Connecticut to mitigate the impact of COVID-19. While a potential risk, the outbreak did not have a materially adverse effect on the City in fiscal year 2020, nor does the City anticipate the outbreak to have a materially adverse financial effect on the City for fiscal year 2021.

On March 16, 2020, the City declared a local state of emergency. This step allows the Mayor to exercise emergency powers as needed to help the community and better positioned the City to access emergency federal aid. Effective March 17, 2020 the Mayor closed City buildings to the public except by appointment only while allowing operations to continue with staff performing essential services and some working remotely. On June 1, 2020, the City returned to full, in-person staffing in its offices and continued to perform most services.

As a result of Governor Lamont's Executive Order 7S and 7W in April 2020, the City elected to implement a short-term tax relief program which allowed taxpayers who demonstrated need due to COVID-19 to defer their July 1, 2020 tax payment by three months. Financial institutions and mortgage servicers that hold property taxes in escrow were required to continue to remit property taxes to the City according to the regular timetable, so long as the borrower remained current on his or her mortgage or is in a forbearance or deferment program. Applications for the "Deferment Program" were due by July 1, 2020. In total, 36 taxpayers were approved for a total of \$160,430 in property taxes that were deferred from a due date of July 1, 2020 to October 1, 2020. This is only 0.1% of the total budgeted current year taxes for the fiscal year and it did not have a material adverse effect on the City.

The City of Milford had the highest recorded registration of businesses in over a decade in 2018. From 2018 to 2019, the trend continued with a 4% increase in business starts. They range from small to mid-size businesses and include medical offices and construction. On the employment front, retail, manufacturing, and health care remain the top industry employment in Milford. While the loss of approximately 300 jobs at Subway World Headquarters is of concern, the City benefitted from the addition of Hartford Healthcare Medical Group who renovated the former ADP office building into a new medical center.

Over the last year, Milford's downtown saw a number of new businesses open, such as, Flipside Bar & Burger, Founder's House Pub & Patio, and My Bar & Grille. There are a number of micro apartments under construction on River Street as demand grows for transit-oriented living and a new mixed-use development is planned for the former Smith Funeral Home property at 135 Broad Street. In addition, Metro Star Properties plans to build a mixed-use development on the City-owned property next to the train station. It will include fifty market rate apartments, an underground garage with 125 public parking spaces and approximately 13,000 sq. ft. of commercial space. The project is expected to break ground in 2021.

Our office sectors are growing slowly due to a shift in space needs, but we have welcomed several new businesses to Milford in this sector. A Stamford-based real estate investment firm, Stone Harbour Capital, has acquired the former Merritt Crossing complex at 440 Wheeler's Farm Road and plans a major investment for the space. WICC600-AM relocated from Bridgeport to this building along with another popular FM radio station, WEBE108.

The industrial sector of Milford continues to be well occupied. On Old Gate Lane we saw Landmark Interiors of New York, custom interiors, and Milford Truck Accessories, LLC make their home. The former and longtime vacant Bennigan's transformed into Milford Sports Bar offering another eatery to the menu. On Pepe's Farm Rd, Schultz Dental Group, supplier of dental supplies and equipment joined us. Meridith Baer Home (MBH) headquartered in California, has expanded into Milford with 56,000 square feet at 500 Bic Drive. Ephemeral Solutions, Inc., a biotech manufacturing laboratory, opened with 3,400 sq ft of space at 4 Oxford Road. AAA Northeast purchased the former Progressive Insurance at 302 Woodmont Road bringing 125 new jobs.

Workforce development remains a focus in Milford and the City continues to support small businesses with assistance by offering workshops from the Small Business Association and the Small Business Development Center. Further, the City helps to coordinate visits with representatives from the State Department of Economic and Community Development. The Small Business Development Council offers office hours monthly at the City's Community Development Office.

Milford continues to work with public and private agencies to foster economic growth. Close relationships exist between the City and the Milford Chamber of Commerce and state and federal economic development organizations. Milford continues to work with 15 other communities in the Regional Growth Partnership.

Internal Controls

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Single Audits. As a recipient of federal and state financial assistance, the City of Milford is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management.

As a part of the City's single audits described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the City has complied with applicable laws and regulations. The results of the City's single audits for the fiscal year ended June 30, 2020, provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

THE OPERATING BUDGET

Guidelines

Budgetary Control

In addition to internal accounting controls, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budgets for the General Fund as approved by the Board of Aldermen and as may be amended by the Board during the fiscal year. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the department. The City also maintains project budgets for all capital project funds and special revenue funds.

To aid in budgetary control, the City maintains an encumbrance accounting system to record obligations by line item for the General Fund, all capital project funds and all special revenue funds. Certification of funds availability is required prior to issuance of purchase orders, which are recorded as encumbrances in the budgetary accounting system. Encumbrances for goods and services that have not been received by June 30 of each year are reported as reservations of fund balance. Invoices will be paid in the next fiscal year against these encumbrances. The Mayor can authorize budget transfers within a classification (Personal Services, Operating Expenses, Capital Outlay, etc.) of a department. All transfers between classifications in a department or between departments and all transfers into an account not approved at the budget vote must be justified to and approved by the Board of Finance and the Board of Aldermen.

Debt

The City's long-standing administrative policy is that debt service shall not exceed 10% of the respective year budget. On February 6, 2017, the Board of Aldermen formally adopted this policy. For FY20, debt service represents approximately 8.3% of the budget.

Use of Fund Balance

The City has a long-standing administrative policy of maintaining a minimum of 5% of the current year budget in unassigned fund balance. On February 6, 2017, the Board of Aldermen formally adopted this policy along with a debt management policy and pension funding policy.

Budgetary and Long-Term Financial Planning

The City officials are very mindful of the current economic circumstances, the level of taxes, and the need to balance them with the needs and expectations of the community. Historically, the City has completed bond refundings which have lowered debt service costs. The administration negotiated with its Police, Fire, and other unions and worked with them to implement healthcare plan design changes to their union contracts--making a high deductible, health savings account plan the sole, core plan for new hires. Further, the City and BOE are offering retirees the option to convert to a Medicare Advantage Plan in January 2021. This should help to lower healthcare costs over the long term.

The City tries to conservatively budget revenues, particularly building permit fees, investment income, and conveyance fees. These revenues are highly dependent on the economy and market conditions. The City has also recognized the impacts of the economy on the State budget and is conservative in planning for State grants. For FY19 and FY20, the City planned for adjustments in certain grants and others with level funding. In FY20, state grants were budgeted at \$12.2 million and funded 5.6% of the City's budget. In FY19, state grants were budgeted at \$12.4 million, which was 5.9% of the budget. The Education Cost Sharing Grant, which is a major grant for the City, decreased from \$10 million budgeted in FY19 to \$9.9 million budgeted in FY20.

The City aims to keep expenses to the lowest amount possible and still provide adequate services. The City negotiated a wage increase of 2.5% for FY19 for all City unions and gave the same to the non-represented employees. Contracts expired in either FY19 or FY20 and are being negotiated. In FY19 and FY20, the Education Operations (EO) budget increased 1.5% and 1.89% and the City's budget increased 2.7% and 3.9% respectively. Some of the key reasons for the City's increase were as follows: a \$1 million increase in the pension annual contribution, a \$1.5 million increase in debt service, and approximately \$1 million in contractual wage increases for City employees. Each year, the City works to implement changes which will result in expenditure savings as well, including a microgrid at the Parsons Government Center complex in addition to a fuel cell at the Beaverbrook Wastewater Treatment Plant. Moreover, the City was able to save approximately \$4 million in stop-loss premium expense by increasing the health care claims retention from \$100,000 to \$200,000 for the FY21 budget.

The long-term plan for the City is to continue with a business-friendly environment to encourage development/redevelopment of properties. The City will only have minimal, if any, personnel increases. Labor contracts for six of the nine City unions expired on June 30, 2019. The Police, Fire, and Nurses contracts expire on June 30, 2020. Negotiations for new contracts are in their early stages and will continue. The existing contracts include a premium cost share on an increasing sliding scale for all employees who contribute to the cost of their health insurance (Police already had a premium cost share implemented). They also include a Health Savings Account as the sole plan for new hires. The City will have to balance fixed asset and infrastructure maintenance/improvements while keeping debt service at a manageable level. The City plans to continue funding of the pension plans. The City will continue compiling a five-year capital plan and a five-year vehicle and equipment replacement schedule.

Secondary Market Disclosure

The City has agreed to provide or cause to be provided to the Municipal Securities Rulemaking Board (MSRB), through its [Electronic Municipal Market Access \(EMMA\) website](#) the City's annual financial information and operating data including the City's audited financial statements. The data to be provided shall include the following:

Amounts of the gross and net taxable grand list applicable to the fiscal year (See Statistical Table 7);

Listing of the ten largest taxpayers on the applicable grand list, together with each such taxpayer's taxable valuation thereon (See Statistical Table 8);

Percentage and amount of the annual property tax levy collected and uncollected as of the close of the fiscal year (See Statistical Table 9);

Schedule of the annual debt service on outstanding long-term bonded indebtedness as of the close of the fiscal year (See Note 7);

Calculation of the net direct debt, total direct debt, and total overall net debt (reflecting overlapping and underlying debt) as of the close of the fiscal year (See Statistical Table 13);

Total direct debt, total net direct debt and total overall net debt of the City per capita (See Statistical Table 13);

Ratios of the total direct debt and total overall net debt of the City to the City's net taxable grand list (See Statistical Table 13);

Statement of statutory debt limitations and debt margins as of the close of the fiscal year (See Statistical Table 11); and

Funding status of the City's pension benefit obligations as of the close of the fiscal year (See Note 9 to the General Purpose Financial Statements).

Independent Audit

Connecticut State Statutes require that all municipalities have their accounts audited annually (C.G.S. Section 7-392) by an independent accountant. The City Charter requires an annual of all financial records of the City, its departments, bureaus, agencies, boards and offices. The firm of Blum, Shapiro & Company, P.C., Certified Public Accountants, was selected to be the City's independent auditors. In addition to meeting the State Statute and City Charter requirements, the audit was also designed to meet the requirements of Management and Budget's Circular A-133. In addition, State requirements for single audit were also met by the audit. The auditors' report on the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information (the basic financial statements) is included in the financial section of this report. The combining and individual nonmajor fund financial statements and schedules have been subject to the auditing procedures applied in the audit of the basic financial statements and have an auditor's opinion in relation to the basic financial statements taken as a whole. The auditors' report on internal controls and compliance with applicable laws and regulation for both federal and state single audits will be found in separately issued single audit reports.

Certificate of Achievement for Excellence in Financial Reporting

The government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in financial Reporting to the City of Milford for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was the sixteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

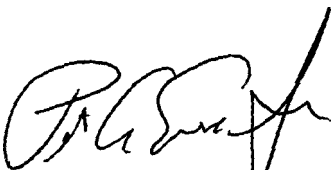

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report on a timely basis was made possible by the efficient and dedicated service of the Finance Department staff. I would like to express my particular appreciation to Ariane Swift and Vernelle Bethel for their assistance and contributions. In addition, the accounting firm of blumshapiro made substantial contributions by way of design, proofing and interpretation of recent guidelines.

Appreciation is also expressed to the Mayor, the Board of Aldermen, the Board of Finance and the Department Heads for their cooperation and assistance throughout the year in matters pertaining to the City of Milford's finances.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Peter A. Erodici, Jr.', with a long, sweeping vertical line extending downwards from the end of the signature.

Independent Auditors' Report

To the Board of Finance
City of Milford, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Milford, Connecticut, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Milford, Connecticut's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Milford, Connecticut, as of June 30, 2020 and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and the pension and OPEB schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Milford, Connecticut's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the City of Milford, Connecticut, as of and for the year ended June 30, 2019 (not presented herein), and have issued our report thereon dated December 21, 2019, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. The accompanying General Fund balance sheet as of June 30, 2019 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2019 financial statements. The accompanying General Fund balance sheet has been subjected to the auditing procedures applied in the audit of the 2019 basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund balance sheet is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2019.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2020 on our consideration of the City of Milford, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Milford, Connecticut's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Milford, Connecticut's internal control over financial reporting and compliance.

**CITY OF MILFORD, CONNECTICUT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2020**

This discussion and analysis of the City of Milford, Connecticut's (the City) financial performance is provided by management to provide an overview of the City's financial activities for the fiscal year ended June 30, 2020. This is the eighteenth year of reporting in accordance with Statement No. 34 of the Governmental Accounting Standards Board. Please read this MD&A in conjunction with the transmittal letter and the City's financial statements, Exhibits I to IX.

Financial Highlights

- The City's net position decreased \$22 million as a result of this year's operations. The operating net position decrease was attributable to a combination of higher educational and general government expenses and use of fund balance of \$9.3 million to balance the budget.
- During the year, the City had expenses that were \$22 million more than the \$257 million generated in tax and other revenues for governmental programs.
- Total cost of all the City's programs was \$279 million with no new programs added this year.
- The General Fund reported a total fund balance this year of \$37 million and unassigned fund balance of \$23 million.
- The general fund ended the year with a budgetary surplus of approximately \$5.6 million. This was attributable to actual expenditures lower than the budgeted amount and higher than expected tax collections and other revenues.

Overview of the Financial Statements

This annual report consists of a series of financial statements. The statement of net position and the statement of activities (Exhibits I and II, respectively) provide information about the activities of the City as a whole and present a long-term view of the City's finances. Fund financial statements are presented in Exhibits III to IX. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The analysis of the City as a whole begins on Exhibits I and II. The statement of net position and the statement of activities report information about the City as a whole and about its activities for the current period. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position, along with the changes in net position. The City's net position, the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, is one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. The reader needs to consider other non-financial factors, however, such as changes in the City's property tax base and the condition of the City's capital assets, to assess the overall health of the City.

In the statement of net position and the statement of activities, we divide the City into two types of activities:

- *Governmental activities* - Most of the City's basic services are reported here, including education, public safety, public services, health and welfare, and general administration. Property taxes, charges for services, and state and federal grants finance most of these activities.
- *Business-type activities* - The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's Golf Course and Harbor Management Fund are reported here.

Fund Financial Statements

The fund financial statements begin with Exhibit III and provide detailed information about the most significant funds - not the City as a whole. Some funds are required to be established by Charter. However, the City Board of Aldermen establishes many other funds to help control and manage financial activities for particular purposes (like the Capital Project Funds) or to show that it is meeting legal responsibilities for using grants and other money (like grants received from the State Department of Education). The City's funds are divided into three categories: governmental, proprietary and fiduciary.

- *Governmental funds (Exhibits III and IV)* - Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is described in a reconciliation included with the fund financial statements.
- *Proprietary funds (Exhibits V, VI and VII)* - When the City charges customers for the services it provides, whether to outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities. In fact, the City's enterprise funds (a component of proprietary funds) are the same as the business-type activities reported in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds. Internal service funds (the other component of proprietary funds) are used to report activities that provide supplies and services for the City's other programs and activities - such as the City's Health, Workers' Compensation, and Property and Casualty Internal Service Funds.

- *Fiduciary funds (Exhibits VIII and IX)* - The City is the trustee, or fiduciary, for its employees' pension and other postemployment benefit plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the City's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. These activities are excluded from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Government-Wide Financial Analysis

The City's combined net position decreased from \$(239) million to \$(260) million. The analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities.

Table 1
NET POSITION
(In Thousands)

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and other assets	\$ 112,740	\$ 120,572	\$ 557	\$ 575	\$ 113,297	\$ 121,147
Capital assets	361,779	360,156	2,226	2,247	364,005	362,403
Total assets	<u>474,519</u>	<u>480,728</u>	<u>2,783</u>	<u>2,822</u>	<u>477,302</u>	<u>483,550</u>
Deferred outflows of resources	<u>70,924</u>	<u>7,608</u>			<u>70,924</u>	<u>7,608</u>
Long-term debt outstanding	704,674	615,876			704,674	615,876
Other liabilities	48,630	47,344	22	34	48,652	47,378
Total liabilities	<u>753,304</u>	<u>663,220</u>	<u>22</u>	<u>34</u>	<u>753,326</u>	<u>663,254</u>
Deferred inflows of resources	<u>55,143</u>	<u>66,537</u>			<u>55,143</u>	<u>66,537</u>
Net position:						
Net investments in capital assets	167,039	164,069	2,226	2,247	169,265	166,316
Unrestricted	<u>(430,043)</u>	<u>(405,490)</u>	<u>535</u>	<u>541</u>	<u>(429,508)</u>	<u>(404,949)</u>
Total Net Position	<u>\$ (263,004)</u>	<u>\$ (241,421)</u>	<u>\$ 2,761</u>	<u>\$ 2,788</u>	<u>\$ (260,243)</u>	<u>\$ (238,633)</u>

Net position of the City's governmental activities decreased 9% (\$(241) million compared to \$(263) million). Unrestricted net position - the part of net position that can be used to finance daily operations without constraints established by debt covenants, enabling legislation, or other legal requirements - increased to a deficit of \$432 million at the end of this year. Key reasons for this change in net position are the increase in the OPEB obligation for the City and Board of Education as well as pension obligations for the City.

There was a 1% decrease (\$2.79 million compared to \$2.76 million in the net position of business-type activities from 2019 to 2020.

Change in Net Position	(21,583)	(64,374)	(27)	(1,078)	(21,610)	(65,452)
Beginning Net Position	<u>(241,421)</u>	<u>(177,047)</u>	<u>2,788</u>	<u>3,866</u>	<u>(238,633)</u>	<u>(173,181)</u>
Ending Net Position	<u>\$ (263,004)</u>	<u>\$ (241,421)</u>	<u>\$ 2,761</u>	<u>\$ 2,788</u>	<u>\$ (260,243)</u>	<u>\$ (238,633)</u>

The City's total revenues were \$257 million. The total cost of all programs and services was \$279 million. Our analysis below separately considers the operations of governmental and business-type activities.

Governmental Activities

The City's revenues increased by \$16 million from 2019. Most of the increase is attributable to higher operating grants and contributions. In particular, the State's teacher's pension contribution was \$9 million higher than last year. In addition, the City received a Local Transportation Capital Improvement Program grant of \$1.8 million for the Gulf Street and Cherry Street Pavement Restoration Project.

Table 3 presents the cost of each of the City's three largest programs - public safety, public services, and education - as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

Table 3
GOVERNMENTAL ACTIVITIES
(In Thousands)

	Total Cost of Services		Net Cost of Services	
	2020	2019	2020	2019
Public safety	\$ 39,632	\$ 44,567	\$ 33,791	\$ 38,599
Public services	18,467	18,639	15,168	16,022
Education	176,024	157,377	134,699	131,636
All others	44,418	37,976	38,446	32,484
Totals	\$ <u>278,541</u>	\$ <u>258,559</u>	\$ <u>222,104</u>	\$ <u>218,741</u>

Business-Type Activities

Revenues of the City's business-type activities (see Table 2) decreased by 3% (\$326 thousand in 2020 compared to \$335 thousand in 2019) and expenses decreased by 1% (\$303 thousand in 2020 versus \$307 thousand in 2019). This was primarily due to a decline of \$10 thousand in golf course fee revenue in the Golf Course fund and reflects the impact of the COVID-19 pandemic on golf course usage.

City Funds Financial Analysis

Governmental Funds

As the City completed the year, its major governmental funds (as presented in the balance sheet - Exhibit III) reported a combined fund balance of \$22 million, which is a decrease of \$6.5 million over last year's major fund balance of \$28.5 million. The general fund's fund balance decreased by \$5 million compared to the prior year since the City used \$9.3 million of fund balance, offset by a budgetary surplus of \$5.6 million, to maintain a stable and slightly lower mill rate. The City kept expenses at a moderate level which led to savings; and building inspection fee, conveyance fee, and EMS fee revenue continued to grow or remain stable reflecting the City's growing economy and grand list. Further, the City issued \$10 million less in bonds in FY20 compared to FY19 in anticipation of future grant revenue. Also, expenses were \$6 million less in the capital nonrecurring fund. The nonmajor governmental funds ended the year with a total fund balance of \$15 million as the City continues to earn sufficient special revenues primarily in the form of grants and program revenues to cover expenditures in those funds.

Proprietary Funds

The Internal Service Funds' net position increased by \$155 thousand primarily due to lower than expected health insurance costs. The Enterprise Funds' net position decreased from last year by \$27 thousand mainly due to use of fund balance for capital or maintenance projects at the Golf Course and Marina.

General Fund Budgetary Highlights

- General Property Taxes and Assessments - property tax and assessment revenue was greater than budgeted by \$2.3 million due to a higher collection rate than was used in the budget and collection of delinquent taxes.
- State aid revenue was less than budgeted by \$107 thousand. This was mainly due to Special Education grant revenue coming in less than budget. Investment income - revenues from the investment of idle funds were more than budgeted by \$412 thousand due to slightly higher interest rates and more money on deposit in the Connecticut Short Term Investment Fund.
- Other Revenue was \$311 thousand greater than budget due to an increase in miscellaneous other revenues.
- Licenses, Permits and Other Charges were \$397 thousand below budget mainly due to sale of City property that did not materialize yet. These income categories are directly related to the economy and population and can fluctuate.
- Department Expenditures - Expenditure controls were put into place throughout the fiscal year, including continued monitoring of new hiring, overtime, and purchase requisitions, which resulted in an overall budget surplus of \$3.3 million on the expenditure side.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2020 the City's governmental activities had \$362 million invested in a broad range of capital assets, including land, buildings, park and recreation facilities, vehicles and equipment, roads, and water and sewer lines - Table 4. This amount represents a net increase (including additions and deductions) of \$1.6 million over last year.

Table 4
CAPITAL ASSETS AT YEAR-END (Net of Depreciation)
(In Millions)

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Land	\$ 47.7	\$ 47.8	\$ 1.7	\$ 1.7	\$ 49.4	\$ 49.5
Construction in progress	49.3	46.5			49.3	46.5
Buildings and improvements	187.4	193.1	0.5	0.6	187.9	193.7
Machinery and equipment	11.3	11.2			11.3	11.2
Infrastructure	66.1	61.5			66.1	61.5
Totals	\$ <u>361.8</u>	\$ <u>360.2</u>	\$ <u>2.2</u>	\$ <u>2.2</u>	\$ <u>364.0</u>	\$ <u>362.4</u>

This year's major additions included (in thousands):

Police Department Equipment and Vehicles	\$	437
Fire Department Equipment and Vehicles		367
Public Works Department Equipment and Vehicles		790
Citywide Computer Replacement and Virtualization Project		549
Gulf Street and Cherry Street Pavement Restoration - CIP		1,922
Flax Mill Lane Bridge Replacement Project - CIP		705
Library Facility Upgrade - CIP		560
Bayview Beach Flood Mitigation and Drainage Project - CIP		524
Athletic Facilities Upgrade - CIP		1,083
West Shore Middle School Additions - CIP		536
Viscount Drive Sanitary Sewer Project - CIP		1,901
Boston Post Road Sewer Replacement Project - CIP		789
Various Schools Security Upgrades - CIP		380
	\$	<u>10,543</u>

The City's fiscal-year 2020-2021 capital plan has \$54 million of capital projects planned. School building renovations are estimated at \$14 million, and public service projects at \$38 million and Sewer projects at \$3 million. However, an estimated \$30 million new police station is still in the planning stages and will not be completed in FY21. Of the total estimated \$54 million, it is expected to finance \$45 million with bonds and \$5 million with grants. It is likely that not all projects will be implemented - resulting in a lower level of cost. More detailed information about the City's capital assets is presented in Note 5 to the financial statements.

Long-Term Debt

At June 30, 2020, the City had \$193 million in bonds and notes outstanding versus \$195 million last year - a decrease of 1% - as shown in Table 5. Additional detail on the City's long-term debt can be found in Note 7.

Table 5
OUTSTANDING DEBT
(In Thousands)

	Governmental Activities	
	2020	2019
General obligation bonds (backed by the City)	\$ 145,760	\$ 147,570
Bond anticipation notes (backed by the City)	23,635	23,280
Long-term notes payable	22,213	24,614
Capital lease payable	1,563	
Totals	\$ <u>193,171</u>	\$ <u>195,464</u>

Economic Factors and Next Year's Budgets and Rates

The City's elected and appointed officials considered many factors when setting the fiscal year 2020 budget tax rates and fees that will be charged for the business-type activities. One of those factors is the economy. The City's unemployment rate has increased from 3.2% to 5.8%. In comparison, the figures for the State of Connecticut also have increased from 3.6% to 5.8%.

These indicators were considered when adopting the General Fund budget for 2020-2021. The adopted budget for FY2021 is \$217.7 million, an increase of 0.5% over the final 2020 budget of \$216.5 million. No new programs or initiatives were added to the 2021 budget. State grants were assumed to fund 5% of the 2021 budget compared to 6% of the 2020 budget.

If estimates are realized, the City's June 30, 2021 budgetary General Fund balance is expected to be \$9 million lower than the June 30, 2020 budgetary General Fund balance because of the use of that amount to balance the budget. An expected budgetary surplus will offset this decrease. As for the City's business-type activities, we expect that the 2020-2021 results will improve due to increased usage of the golf course and marina.

Contacting the City's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, City of Milford, 70 West River Street, Milford, Connecticut 06460.

CITY OF MILFORD, CONNECTICUT
BALANCE SHEET - GOVERNMENTAL FUNDS (CONTINUED)
JUNE 30, 2020
(In Thousands)

Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Position:

Amounts reported for governmental activities in the statement of net position (Exhibit I) are
different because of the following:

Fund balances - total governmental funds	\$ 37,483
--	-----------

Capital assets used in governmental activities are not financial
resources and, therefore, are not reported in the funds:

Governmental capital assets	\$ 588,804	
Less accumulated depreciation	<u>(227,025)</u>	
Net capital assets		361,779

Other long-term assets and deferred outflows of resources are not available to pay
for current-period expenditures and, therefore, are not recorded in the funds:

Property tax receivables greater than 60 days	3,772
Interest receivable on property taxes	2,868
Assessments receivable	168
Interest receivable on assessments	115
Deferred outflows related to pensions	12,344
Deferred outflows related to OPEB	55,343

Internal service funds are used by management to charge the costs of
risk management to individual funds. The assets and liabilities of
the internal service funds are reported with governmental activities
in the statement of net position.

13,184

Long-term liabilities, including bonds payable and deferred inflows or resources, are
not due and payable in the current period and, therefore, are not reported in the funds:

Bonds and notes payable	(167,973)
Capital lease	(1,563)
Accrued interest payable	(940)
Compensated absences	(17,611)
Bond premium	(9,718)
Net pension liability	(91,637)
Total/Net OPEB liability	(409,783)
Deferred inflows related to pensions	(3,235)
Deferred inflows related to OPEB	(50,837)
Deferred charges on refunding	<u>3,237</u>

Net Position of Governmental Activities (Exhibit I)	<u><u>\$ (263,004)</u></u>

(Continued on next page)

CITY OF MILFORD, CONNECTICUT
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES (CONTINUED)
GOVERNMENTAL FUNDS
FOR THE YEAR ENDED JUNE 30, 2020

(In Thousands)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund
Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because:

Net change in fund balances - total governmental funds (Exhibit IV)	\$ (5,206)
---	------------

Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital outlay	13,380
Depreciation expense	(11,519)

The statement of activities reports losses arising from the trade-in of existing capital assets to acquire new capital assets. Conversely, governmental funds do not report any gain or loss on a trade-in of capital assets.	(238)
---	-------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, and revenues recognized in the funds are not reported in the statement of activities:

Property tax receivable - accrual basis change	(1,112)
Property tax interest and lien revenue - accrual basis change	(2,864)
Sewer assessment receivable and interest - accrual basis change	(10)
Sewer assessment interest receivable - accrual change	(1)
Deferred outflows related to pension	8,468
Deferred outflows related to OPEB	55,252

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized and deferred in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:

Bond and note principal payments	13,891
Premium on bonds issued	(350)
Issuance of bonds and notes	(9,680)
Capital lease financing	(1,604)
Capital lease principal payment	41

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Compensated absences	(12)
Accrued interest	(10)
Amortization of bond premium	859
Total/Net OPEB liability	(72,510)
Net pension liability	(19,474)
Deferred inflows related to pension	617
Deferred inflows related to OPEB	10,748
Deferred charges on refunding	(404)

Internal service funds are used by management to charge costs to individual funds. The net revenue of certain activities of internal services funds is reported with governmental activities.

CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020
(In Thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Milford (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the City are described below.

A. Reporting Entity

The government is a municipal corporation governed by an elected mayor and 15-member Board of Aldermen. A 10-member Board of Education oversees all education activities. As required by GAAP, these financial statements present all of the governmental functions for which it is financially accountable.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, charges for services, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received. If expenditures are the prime factor for determining eligibility, revenues from federal and state grants are accrued when the expenditure is made. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, other post-employment benefit obligations, pension obligations and certain claims payable are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The Capital Nonrecurring Fund is used to account for those projects of the City, except for those of the school buildings or sewers, which are capital nonrecurring in nature. The major sources of revenue for this fund are intergovernmental revenues and bond proceeds.

The School Facilities Fund is used to account for construction of school buildings and additions. The major sources of revenue for this fund are State revenues and proceeds from the sale of bonds.

Additionally, the City reports the following fund types:

The Enterprise Funds account for the operations that are financed through user charges. The nonmajor Enterprise Funds include the Milford Golf Course and the Harbor Management.

The Internal Service Funds account for the City's and Board of Education's health insurance, the City's workers' compensation insurance and the City's and Board of Education's property and casualty insurance.

The Pension and Other Employee Benefit Trust Funds account for the activities of the Milford Retirement System, which accumulates resources for pension benefit payments to qualified City employees, and account for and accumulate resources for other post-employment benefits due to City's retirees.

The Agency Funds account for monies from various self-funding school activity programs, inland/wetland bonds and planning and zoning bonds.

The pension and other employee benefit trust funds use the economic resources measurement focus and the accrual basis of accounting. The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between certain City's functions because the elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Municipal Golf Course enterprise fund, the Harbor Management enterprise fund, and the City's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed. Unrestricted resources are used in the following order: committed, assigned then unassigned.

D. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements and certain other investments as described in Note 3.

Investments for the City are reported at fair value.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." All trade and property tax receivables are shown net of an allowance for uncollectibles.

Property taxes are levied each June on the assessed value listed on the prior October 1 grand list for all taxable property located in the City. Although taxes are levied in June, the legal right to attach the property does not exist until July 1, and, as such, taxes are due and payable in equal installments on July 1 and January 1 following the date of the grand list. Taxes become overdue one month after the installment date. Interest accrues at the rate of 1.5% per month. Additional property taxes are assessed for motor vehicles registered subsequent to the grand list date and are payable in one installment due January 1.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

In accordance with State law, the oldest outstanding tax is collected first. Prior to June 30 of each year, liens are automatically placed on outstanding real estate tax accounts, with legal demands and alias tax warrants used in the collection of personal property and motor vehicle tax bills.

Real estate, motor vehicle and personal property accounts are no longer collectible 15 years after the due date in accordance with State Statutes. A total of \$1,196 has been established as an allowance for uncollectible taxes and interest.

F. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method in both government-wide and fund financial statements.

G. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Infrastructure	15-50
Motor vehicles	5-15
Office and other equipment	5-10

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports a deferred charge on refunding and deferred outflows related to pension and OPEB in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plans (active employees and inactive employees).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The City reports advance property tax collections and sewer collections in the government-wide statement of net position and in the governmental funds balance sheet as deferred inflows of resources. Advance property tax and sewer collections represent tax and sewer fees inherently associated with a future period. This amount is recognized during the period in which the revenue is associated. In addition, the City reports a deferred inflow of resources related to pensions and OPEB in the government-wide statement of net position. A deferred inflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plans (active employees and inactive employees). Also, for governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

I. Compensated Absences

Under the terms of its various union contracts, City and Board of Education employees are granted vacation in varying amounts based on length of service. Certain employees may carry over a limited number of unused vacation days to subsequent years and, in the event of termination, these employees are reimbursed for accumulated vacation.

Under the terms of its various contracts, City and Board of Education employees are granted sick leave in varying amounts. Certain employees may carry over a limited number of unused sick days to subsequent years and, in the event of termination, these employees are reimbursed for accumulated sick time. Accumulated vacation and sick time are recognized as a liability of the City in the government-wide statement of net position.

CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020
(In Thousands)

J. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are also reported as other financing uses.

K. Net Pension Liability

The net pension liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

L. Total Other Postemployment Benefits Other than Pensions (OPEB) Liability

The total OPEB liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service. The total OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year and no later than the end of the current fiscal year, consistently applied from period to period.

M. Net OPEB Liability

The net OPEB liability is measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position. The OPEB plan's fiduciary net position is determined using the same valuation methods that are used by the OPEB plan for purposes of preparing its statement of fiduciary net position. The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

N. Fund Equity

Equity in the government-wide financial statements is defined as "net position" and is classified in the following categories:

Net Investments in Capital Assets

This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

Restricted Net Position

Net position is restricted when there are externally imposed restrictions by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

This component of net position includes anything that does not meet the definition of “restricted” or “net investments in capital assets.”

The equity of the fund financial statements is defined as “fund balance” and is classified in the following categories:

Nonspendable Fund Balance

This represents amounts that cannot be spent due to form (e.g., inventories and prepaid amounts).

Restricted Fund Balance

This represents amounts constrained for a specific purpose by external parties, such as grantors, creditors, contributors or laws and regulations of their governments.

Committed Fund Balance

This represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority. The Board of Aldermen has the highest level of decision-making authority for the City of Milford. In order for the City to establish, modify or rescind a fund balance commitment, the Mayor must make a recommendation to the Board of Aldermen, which has final authority. The Board of Aldermen is required to vote upon and approve a resolution to establish, modify or rescind a fund balance commitment.

Assigned Fund Balance

This balance represents amounts constrained for the intent to be used for a specific purpose by a governing board (Board of Alderman) or a body or official (Director of Finance) that has been delegated authority to assign amounts by the City Charter.

Unassigned Fund Balance

This represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

O. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, including disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

P. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is December 8, 2020.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Prior to February 1, the Mayor and the Board of Education submit proposed budgets for their respective shares of the General Fund to the Board of Finance. Prior to April 1, the Board of Finance submits to the Board of Aldermen the proposed fiscal budget. The Board of Aldermen then holds hearings on the Board of Finance's proposed budget. The Board of Aldermen may reduce or delete any item contained in the Board of Finance's budget by a simple majority. The Board of Aldermen may increase or add to any item in the Board of Finance budget by a two-thirds vote. The Board of Aldermen adopts the budget for the following fiscal year and sets the mill rate. This budget, at the department level, becomes the legal level of control. For management purposes, the Mayor is authorized to transfer budgeted amounts between like categories of line items within individual budgeted departments. All other transfers, as well as additional appropriations, must first be approved by the Board of Finance and then by the Board of Aldermen. Additional appropriations of \$1,290 were approved during the fiscal year.

All unencumbered appropriations lapse at year end, except those for Capital Projects and Special Revenue Funds. Appropriations for these funds are continued until completion of applicable projects, which generally extend more than one fiscal year.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded as assigned or committed fund balance, in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in all governmental fund types. For GAAP purposes, encumbrances outstanding at the year-end are reported as an assignment or commitment of fund balance since they do not constitute expenditures or liabilities.

The major difference between the budgetary and GAAP basis of accounting is:

- Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order is issued and, accordingly, encumbrances outstanding at year end are reflected in budgetary reports as expenditures in the current year whereas they are shown as an assigned fund balance on a GAAP basis of accounting.
- The City reports on-behalf contributions made by the State of Connecticut to the Connecticut State Teachers' Retirement System and OPEB system as revenue and expenditures for GAAP purposes.
- At the end of each fiscal year, the Board of Education's summer payroll is charged to the subsequent year's budget. As these expenditures should be accrued, this adjustment is necessary to properly record expenditures on a GAAP basis.
- Nonbudgetary items and eliminations related to the Compensated Absences Fund.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

B. Deficit Fund Equity

The following funds had a deficit fund balance at June 30, 2020:

	<u>Amount</u>
Major:	
Capital Nonrecurring Fund	\$ 2,767
School Facilities Fund	12,205
Nonmajor:	
Sanitary Sewer Fund	2,909
School Renovations Fund	195

These deficits will be reduced or eliminated through the receipt of grant funds, permanent financing or future transfers from the General Fund.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a "qualified public depository" as defined by Statute or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an "out of state bank" as defined by the Statutes, which is not a "qualified public depository."

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies, 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open-end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds does not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes also provide for investment in shares of the State Short-Term Investment Fund (STIF). This investment pool is under the control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board and is regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

Deposits

Deposit Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposit will not be returned. The City does not have a deposit policy for custodial credit risk. The deposit of public funds is controlled by the Connecticut General Statutes. Deposits may be placed with any qualified public depository that has its main place of business in the State of Connecticut. Connecticut General Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with federal law) in an amount equal to a defined percentage of its public deposits based upon the depository's risk-based capital ratio.

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$24,733 of the City's bank balance of \$26,778 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 22,184
Uninsured and collateral held by the pledging bank's trust department, not in the City's name	<u>2,548</u>
Total Amount Subject to Custodial Credit Risk	<u>\$ 24,733</u>

Cash Equivalents

At June 30, 2020, the City's cash equivalents amounted to \$99,544. The following table provides a summary of the City's cash equivalents (excluding U.S. government guaranteed obligations) as rated by nationally recognized statistical rating organizations. The pools all have maturities of less than one year.

	<u>Standard & Poor's</u>

Other investments:				
Equities	145,486			
Alternative investments	131,217			
Mutual funds	<u>43,161</u>			
Total Investments	\$ <u>337,038</u>			

*Subject to coverage by Federal Depository Insurance and collateralization.

Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The City limits their maximum final stated maturities to 15 years, unless specific authority is given to exceed. To the extent possible, the City will attempt to match its investments with anticipated cash flow requirements.

CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

(In Thousands)

Credit Risk - Investments

As indicated above, State Statutes limit the investment options of cities and towns. The City has no formal investment policy that would further limit its investment choices. Presented below is the average rating of investments in debt securities.

Average Rating	Corporate Bonds	U.S. Government Securities	U.S. Government Agencies	Certificate of Deposit
Aaa	\$	\$ 4,142	\$	\$
Aa2	222			
Aa3	343			
A1	143			
A2	925			
A3	549			
Baa1	855			
Baa2	871			
Baa3	965			
Ba1	573			
Ba2	61			
Ba3	933			
B1	51			
B2	123			
Unrated		615	4,549	1,254
	\$ 6,614	\$ 4,757	\$ 4,549	\$ 1,254

Concentration of Credit Risk

The City has no policy limiting an investment in any one issuer that is in excess of 5% of the City's total investments.

Custodial Credit Risk

Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the City or that sells investments to or buys them for the City), the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a policy for custodial credit risk. At June 30, 2020, the City did not have any uninsured and unregistered securities held by the counterparty, or by its trust department or agent that were not in the City's name.

CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

(In Thousands)

Fair Value

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The City has the following recurring fair value measurements as of June 30, 2020:

	June 30, 2020	Fair Value Measurement		
		Level 1	Level 2	Level 3
Investments by fair value level:				
U.S. Government agencies	\$ 4,549	\$ 4,549		\$
U.S. Government securities	4,757	4,757		
Corporate bonds	6,614	6,614		
Equity securities	145,486	145,486		
Alternative investments	51,194	93	51,101	
Mutual funds	43,161	43,161		
Total investments by fair value level	255,761	\$ 204,660	\$ 51,101	\$ -
Investments measured at net asset value (NAV):				
Alternative Investments	80,023			
Certificates of deposit	1,254			
Total Investments	\$ 337,038			

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Alternative investments classified in Level 2 do not have prices quoted in active markets, however a fair value can be determined based on other data values or market prices. Alternative investments primarily represent investments in Limited Partnerships.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented on the following table.

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Equity Hedge Funds	\$ 10,865		Annually	60 days
Equity Hedge Funds	30,178		Quarterly	60 days
Equity Hedge Funds	24,655		Quarterly	90 days
Equity Hedge Funds	10,418		Various	Various
Equity Hedge Funds	<u>3,907</u>	1,425	N/A	
Total Investments Valued at NAV \$	<u>80,023</u>			

Equity Hedge Funds

This type includes investments in hedge funds that invest both long and short primarily in U.S. common stocks. Management of each hedge fund has the ability to shift investments from value to growth strategies, from small to large capitalization stocks, and from a net long position to a net short position. The fair values of the investments in this type have been determined using the NAV per share of the investments.

4. RECEIVABLES

Receivables as of year-end for the City's individual major funds and nonmajor, internal service and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Capital Nonrecurring Fund</u>	<u>Nonmajor and Aggregate Remaining Funds</u>	<u>Total</u>
Receivables:				
Taxes and interest	\$ 8,416	\$	\$	\$ 8,416
Accounts	179		816	995
Special assessments	20			20
Intergovernmental		695	273	968
Gross receivables	<u>8,615</u>	<u>695</u>	<u>1,089</u>	<u>10,399</u>
Less allowance for uncollectibles:	<u>(1,196)</u>			<u>(1,196)</u>
Net Total Receivables	<u>\$ 7,419</u>	<u>\$ 695</u>	<u>\$ 1,089</u>	<u>\$ 9,203</u>

The above table does not include interest on sewer assessments of \$115.

6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

During the course of operations, transactions are processed through a fund on behalf of another fund. Additionally, revenues received in one fund are transferred to another fund. Interfund receivables and payables generally represent temporary balances arising from reimbursement type transactions. There were no interfund receivables and payables as of June 30, 2020. Interfund transfers as of June 30, 2020 are as follows:

	Transfers In			
	General Fund	Capital Nonrecurring	Nonmajor Governmental	Total Transfers Out
Transfers out:				
General Fund	\$	\$ 1,569	\$ 1,450	\$ 3,019
Nonmajor Enterprise		50		50
Nonmajor Governmental	57	115		172
Total	\$ <u>57</u>	\$ <u>1,734</u>	\$ <u>1,450</u>	\$ <u>3,241</u>

General Fund transfers are made in accordance with budget appropriations and authorized allocation transfers. The General Fund transfers to other funds are primarily for the purpose of establishing local funding for capital projects to reduce bonding. Transfers are used to move unrestricted general fund revenues to fund various programs that must be accounted for separately in accordance with budgetary authorizations.

Total	\$ 145,760	\$ 36,456	\$ 182,216

Clean Water Serial Notes Payable

The City has several State of Connecticut Clean Water serial notes outstanding. The interest rate is 2% and the notes are payable through May 31, 2029. The principal and interest payments are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 2,370	\$ 420	\$ 2,790
2022	2,418	373	2,791
2023	2,467	324	2,791
2024	2,519	273	2,792
2025	2,569	223	2,792
2026-2029	9,789	391	10,180
Total	\$ 22,132	\$ 2,004	\$ 24,136

Long-Term Note Payable

The City has a long-term note payable for a new ambulance. The interest rate is 3.79% and the note was paid off on October 2, 2020. The principal and interest payments are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 81	\$ 3	\$ 84

Prior Year Defeasance of Debt

In prior years, the City had defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. The outstanding balance of the defeased bonds as of June 30, 2020 is \$7,455 and the escrow balance is \$7,723.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

Bond Anticipation Notes

Bond anticipation notes, which serve as temporary financing for certain capital projects, were outstanding at June 30, 2020.

	<u>Amount</u>
Notes payable, July 1, 2019	\$ 23,280
Notes issued	23,635
Notes retired	<u>(23,280)</u>
Notes Payable, June 30, 2020	<u>\$ 23,635</u>

During the year, the City issued \$23,635 in notes dated November 4, 2019, which mature on November 3, 2020. The notes carry an interest rate of 2.50%. These notes serve as temporary financing for various school, public improvements and sewer projects.

Capital Lease

The City has entered into a multi-year lease for a micro grid generation system to power certain critical facilities within the City. The lease agreement qualifies as a capital lease for accounting purposes (title transfer at the end of lease term) and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of inception. The asset has not yet been placed in service as of June 30, 2020 and is reported as part of construction in progress for \$1,604.

The following is a schedule of future minimum lease payment under this capital lease and the present value of the net minimum lease payments at June 30, 2020:

<u>Year Ending June 30,</u>	<u>Principal</u>
2021	\$ 135
2022	135
2023	135
2024-2028	716
2029-2033	756
2024	<u>152</u>
Total lease payments	2,029
Less: Amount representing interest	<u>(466)</u>
Present value of minimum lease payments	<u>\$ 1,563</u>

Other Obligations

At June 30, 2020, the dollar value of City employees' and Board of Education employees' accumulated vacation and sick time has been valued using the vesting methods outlined in GASB Statement No. 16. These obligations are typically funded by the General Fund.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

Debt Limitation

The City's indebtedness does not exceed the legal debt limitations as required by the Connecticut General Statutes as reflected in the following schedule:

<u>Category</u>	<u>Debt Limit</u>	<u>Net Indebtedness</u>	<u>Balance</u>
General purpose	\$ 408,794	\$ 100,254	\$ 308,540
Schools	817,587	64,441	753,146
Sewers	681,323	76,653	604,670
Urban renewal	590,480		590,480
Pension deficit	545,058		545,058

The total overall statutory debt limit for the City is equal to seven times annual receipts from taxation (\$1,271,802). The authorized/unissued debt has been reduced by grant proceeds of \$33,799 relative to general purpose and school construction projects.

The indebtedness reflected above includes long-term debt outstanding in addition to the amount of bonds authorized and unissued of \$71,812 against which bond anticipation notes are issued and outstanding.

8. RISK MANAGEMENT (AMOUNTS NOT ROUNDED UNLESS NOTED)

The City and the Board of Education are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and others; and natural disasters. For FY2020, the City and the Board of Education Property, General Liability, Auto Liability, Public Officials' Liability, Police Professional Liability and Educators' Liability were insured by CIRMA with deductibles of \$1,000 for auto physical damage and \$-0- for other liability coverage. Law Enforcement/Public Officials/School Leaders has a \$25,000 deductible and Employee Benefits has a deductible of \$1,000. The Board of Education insures its Workers' Compensation with CIRMA.

The Property/Inland Marine Insurance and Boiler and Machinery Insurance are with CIRMA Insurance. The policy has a deductible of \$50,000. There is \$20,000,000 of coverage for flood damage under this policy. Flood Zones A and V have a deductible of \$1,000,000. The City has purchased coverage from the National Flood Program to cover this deductible. The National Flood Program has a maximum deductible of \$25,000.

All City deductibles and premiums for the City portion of insurance are paid from the City's Property and Casualty Self Insurance Fund. The Board of Education pays for its premiums and deductibles from its operations budget.

The Property and Casualty Self Insurance Fund is an internal service fund that was established by the Board of Aldermen in April 2003 along with a self-insurance program for property and casualty insurance. This fund pays for claims that occurred between April 23, 2003 and June 30, 2008. The General Liability, Auto Liability, Public Officials' Liability, Police Professional Liability and Educator's Liability were self-insured for the first \$250 thousand dollars of each claim. There is still one claim open from this period. The City and Board of Education did not have any claims that exceeded insurance coverage in the past three years.

CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

(In Thousands)

The claims liability reported in the Internal Service Fund at June 30, 2020 is based on GASB Statement No. 10, which requires that a liability for estimated claims incurred but not reported be recorded.

<i>In thousands</i>		Liability July 1,	Current Year Claims	Claim Payments	Liability June 30,
6/30/2019	\$	187	\$ 1,096	\$ 1,171	\$ 112
6/30/2020		112	1,016	1,066	62

The Workers' Compensation Internal Service Fund is used to account for and finance workers' compensation costs for City employees and City Grant Agency employees. Contributions to the Workers' Compensation Fund from the General Fund are made based upon actuarial calculations. Payments are made by Grant Agencies and the Sewer Fund based upon NCCI rates based on payroll.

The City carries an Excess Workers' Compensation Policy with Safety National Casualty Corporation with a self-insured retention per occurrence of \$600,000. The City and Board of Education did not have any claims that exceeded insurance coverage in the past three years.

The General Fund and/or the Property and Casualty Self Insurance Fund will be used to cover any uninsured risks of loss.

Changes in the claims liability for the years ended June 30, 2020 and 2019 were as follows:

<i>In thousands</i>		Liability July 1,	Current Year Claims	Claim Payments	Liability June 30,
6/30/2019	\$	3,921	\$ 1,068	\$ 1,476	\$ 3,513
6/30/2020		3,513	2,530	1,812	4,231

The Health Insurance Service Fund is used to account for and finance indemnity medical coverage for eligible City, Board of Education and City Grant Agency employees and dependents, and prior employees and dependents entitled to continue participation in the City's plan under the provisions of COBRA. For the year ended June 30, 2020, the annual limit on individual medical claims chargeable to the Fund is \$100,000. Payments to the Health Insurance Fund are made by the Grant Agencies, the Sewer Use Fund, the Special Education Grants Fund, the Special Grants Fund, the Harbor Management Enterprise Fund and persons continuing coverage under COBRA in an amount equal to the premium an individual would pay for continuation coverage under the group program. The City makes General Fund contributions to the Health Insurance Fund based on budgeted amounts, which, in conjunction with estimated Grant contributions, total the year's estimated expected losses. Employee and applicable retirees under age 65 also make contributions to the fund through premium cost share. The City and Board of Education did not have any claims that exceeded insurance coverage in the past three years.

6/30/2020		2,805	37,207	37,916	2,096

9. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS

A. City of Milford Retirement System

The City is the administrator of a single-employer public employee retirement system (PERS) established and administered by the City to provide pension benefits for its full-time employees other than teachers who are covered by the Retirement System - State Teachers Retirement Board. The Retirement System is considered to be part of the City of Milford's financial reporting entity and is included in the City's financial reports as a pension trust fund. The City does not issue stand-alone financial statements for the Pension Trust Fund.

Management of the Retirement System rests with the Pension and Retirement Board, which consists of 24 members, who are appointed by the Board of Aldermen.

Plan Descriptions and Benefits Provided

Benefits vest after 10 years for General City members (5 years for Public Works, Supervisors, Custodians and Cafeteria Workers); there is no vesting for Police and Fire members. Except for Police and Fire, members who retire after age 60 with 10 years of service (5 years for Public Works, Supervisors, Custodians and Cafeteria Workers) or the age at which the sum of age and service equal 80 (79 for non-represented members and Board of Education Contract Secretaries) are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2% or 2-1/4% of their final average salary for each year of credited service. Police and Fire members who retire after 20 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 45% times average annual pay plus 2% times average annual pay times credited service over 20 years. Supplemental benefits for Police members who were hired prior to April 6, 1989 and Fire members are based on 1/2 of salary increases given to members in the grade that the member was in at the time of retirement.

Final average salary is the average of the 2 or 3 highest fiscal years compensation. General city members with 10 years of service (5 years for Public Works, Custodians and Cafeteria Workers) may retire at or after age 50 and receive a reduced benefit. If a member leaves covered employment or dies before meeting the vesting requirements, accumulated employee contributions with interest thereon are refunded. Benefits and employee contributions are fixed by contract and may be amended by union negotiation. The surviving spouse of a Fire active member or retiree who retired after November 1, 1988 receives a fixed pension supplement equal to 50% of average annual pay at death or retirement, payable monthly for life. The surviving spouse of a Police active member or retiree who retired after June 29, 2001 receives a fixed pension supplement equal to 50% of average annual pay at death or retirement, payable monthly for life.

Active plan members	667
	<hr/>
Total	1,527
	<hr/>

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

The PERS financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized when due, pursuant to formal commitments, as well as per statutory or contractual requirements. Benefit payments and refunds are payable when due and payable in accordance with the terms of the PERS. All administrative costs are financed through investment earnings.

Method Used to Value Investments

Investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price. Investment income is recognized as earned.

Plan Changes

The City benefits reflect the 2012 ad-hoc COLA that was approved effective May 1, 2013. The change increased the City cost about \$140,000 (not rounded).

Funding Policy

General City members are required to contribute 2.25% of annual compensation up to \$4,200 (not rounded) plus 5% of compensation in excess of \$4,200 (not rounded) (4% of compensation in excess of \$4,200 (not rounded) for MEA and MSA members and non-represented members with 15 or more years of service). Fire employees hired on or before January 31, 2015 shall contribute 8% of annual salary; upon reaching 15 years of service, the contribution requirement is 7% and at the 25-year contribution is 6%. Fire employees hired on or after February 1, 2015 shall contribute 10%. Police employees hired prior to February 2, 1995 are required to contribute 5% of annual salary; at 20 years of service contribution is 4.5%. Police employees hired on or after February 2, 1995 but prior to November 22, 2014 are required to contribute 8%. Police employees hired on or after November 22, 2014 are required to contribute 10%. The contributions by employees are determined by collective bargaining. The City is required by ordinance to contribute the remaining amounts necessary to provide benefits for the members.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Pension Board by a majority vote of its members. It is the policy of the Pension Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2020:

<u>Asset Class</u>	<u>Target Allocation</u>
U.S. Large Cap Equity	25.00%
U.S. Mid/Small Cap Equity	15.00%
International Developed Equity	10.00%
International Emerging Market Equity	5.00%
Core Fixed Income	25.00%
High Yield Fixed Income	2.50%
International Fixed Income	2.50%
REITs	5.00%
Other (hedge fund, etc.)	10.00%
	<u>100.00%</u>

Rate of Return

For the year ended June 30, 2020, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 3.43%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

Net Pension Liability

The components of the net pension liability at June 30, 2020, were as follows:

Total pension liability	\$	438,091
Plan fiduciary net position		<u>346,454</u>
Net Pension Liability	\$	<u><u>91,637</u></u>
Plan Fiduciary Net Position as a Percentage of the Total Pension		79.08%

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of July 1, 2019 and measurement date of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	Age related table
Investment rate of return	7.50%
Cost of living adjustments:	
Post-retirement benefit increases	None, except for Police hired after April 6, 1989 - 3%/annum

Mortality rates were based on RP-2014 adjusted to 2006 Total Dataset Mortality Table, projected to the valuation date with Scale MP-2019. The actuarial method used for calculating the total pension liability was the Entry Age Normal cost method.

The actuarial assumptions used in the valuation were based on the results of an actuarial experience study for the period July 1, 2004 to June 30, 2011.

CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

(In Thousands)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 (see the discussion of the pension plan's investment policy) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
U.S. Large Cap Equity	4.50%
U.S. Mid/Small Cap Equity	5.00%
International Developed Equity	5.25%
International Emerging Market Equity	6.25%
Core Fixed Income	2.00%
High Yield Fixed Income	3.25%
International Fixed Income	1.50%
REITs	4.50%
Other (hedge fund, etc.)	4.50%

Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net difference between projected and actual earnings on pension plan investments	<u>9,376</u>	<u></u>
Total	<u><u>\$ 12,344</u></u>	<u><u>\$ 3,235</u></u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending June 30

2021	\$ (342)
2022	1,894
2023	4,411
2024	3,146

B. State of Connecticut Police and Fire Survivors' Plan

The City makes monthly contributions to the State Survivors' Plan based upon an amount invoiced by the State. The State Survivors' Plan makes monthly payments to the surviving spouses of police and fire retirees. The City has no information concerning payments made by or the funding status of this plan. City contributions for the year ended June 30, 2020 were \$567.

C. Connecticut State Teachers' Retirement System - Pension

Plan Description

Teachers, principals, superintendents or supervisors engaged in service of public schools are provided with pensions through the Connecticut State Teachers' Retirement System, a cost sharing multiple-employer defined benefit pension plan administered by the Teachers Retirement Board. Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the Teachers Retirement Board. The Teachers Retirement Board issues a publicly available financial report that can be obtained at www.ct.gov.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

Benefit Provisions

The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Normal Retirement

Retirement benefits for employees are calculated as 2% of the average annual salary times the years of credited service (maximum benefit is 75% of average annual salary during the 3 years of highest salary).

Early Retirement

Employees are eligible after 25 years of credited service including 20 years of Connecticut service, or age 55 with 20 years of credited service including 15 years of Connecticut service with reduced benefit amounts.

Disability Retirement

Employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required for nonservice-related disability eligibility. Disability benefits are calculated as 2% of average annual salary times credited service to date of disability, but not less than 15% of average annual salary, nor more than 50% of average annual salary.

Contributions

Per Connecticut General Statutes Section 10-183z (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers Retirement Board and appropriated by the General Assembly.

Employer (School Districts)

School District employers are not required to make contributions to the plan.

The statutes require the State of Connecticut to contribute 100% of each school districts' required contributions, which are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of the benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability.

For the year ended June 30, 2020, the amount of "on-behalf" contributions made by the State was \$16,197 and is recognized in the General Fund as intergovernmental revenues and education expenditures.

Employees

Effective July 1, 1992, each teacher is required to contribute 6% of salary for the pension benefit.

Effective January 1, 2018, the required contribution increased to 7% of pensionable salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the City reports no amounts for its proportionate share of the net pension liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required contribution. The amount recognized by the City as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the City were as follows:

City's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the City	<u>213,972</u>
Total	\$ <u><u>213,972</u></u>

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. At June 30, 2020, the City has no proportionate share of the net pension liability.

For the year ended June 30, 2020, the City recognized pension expense and revenue of \$26,279 in Exhibit II.

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increase	3.25-6.50%, including inflation
Investment rate of return	6.90%, net of pension plan investment expense, including inflation

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale, and further adjusted to grade in increased rates (5% for females and 8% for males) over age 80 for the period after service retirement and for dependent beneficiaries as well as for active members. The RPH-2014 Disabled Mortality Table projected to 2017 with Scale BB is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2010 - June 30, 2015.

For teachers who retired prior to September 1, 1992, pension benefit adjustments are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum.

For teachers who were members of the Teachers' Retirement System before July 1, 2007 and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6% per annum. If the return on assets in the previous year was less than 8.5%, the maximum increase is 1.5%.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5% per annum. If the return on assets in the previous year was less than 11.5%, the maximum increase is 3%, and if the return on the assets in the previous year was less than 8.5%, the maximum increase is 1.0%.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The current capital market assumptions and the target asset allocation as provided by the State of Connecticut Treasurer's are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Large Cap U.S. equities	20.00%	8.10%
Developed non-U.S. equities	11.00%	8.50%
Emerging markets (non-U.S.)	9.00%	10.40%
Core fixed income	16.00%	4.60%
Inflation linked bond fund	5.00%	3.60%
Emerging market bond	5.00%	5.20%
High yield bonds	6.00%	6.50%
Real estate	10.00%	7.00%
Private equity	10.00%	9.80%
Alternative investments - real assets	4.00%	8.20%
Alternative investments - hedge	3.00%	5.40%
Liquidity fund	1.00%	2.90%
Total	<u>100.00%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined contribution rates in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The City's proportionate share of the net pension liability is \$-0- and, therefore, the change in the discount rate would only impact the amount recorded by the State of Connecticut.

Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the City has no obligation to contribute to the plan.

10. OTHER POSTEMPLOYMENT BENEFITS

A. Plan Description and Benefits Provided

City Plan

In addition to the pension benefits, all City employees retiring under the City of Milford Retirement Plan are provided postemployment benefits. Individual stand-alone statements are not issued. Effective July 1, 2011, the City established the OPEB Trust Fund, which converted the existing balance in the OPEB fund to the Trust. The City continues to make annual contributions to the OPEB Trust Fund. This trust fund was opened for the purpose of segregating balances for postemployment benefits. All related activity is now shown in the newly established OPEB Trust Fund. The level of these benefits is determined by contract for all union employees and by a City ordinance for all non-represented employees. Per contracts and ordinances, the City will pay a portion of the cost of these benefits. Benefits provided are as follows: 1) for retirees under 65, the City must currently provide Blue Cross/Blue Shield hospitalization, medical/surgical, prescription drug and major medical coverage's (varying deductibles) with coverages provided to both the retired employee and eligible dependents; 2) for retired employees and their eligible dependents, the City must provide Blue Cross/Blue Shield 65 coverage and also reimburse the Medicare Part B premium for each eligible retiree and retiree spouse eligible for Medicare; 3) the City also provides life insurance coverage based on union contracts. Health care costs are as follows (amounts not rounded):

Pre-65:	
General City	\$14,563 per year
Fire	\$14,206 per year
Police	\$14,206 per year
Post-65:	
BC 65 Low Option	\$1,582 per year
Plan 82	\$2,797 per year
Medicare Part B:	
Actives	\$1,735 per year
Retirees	\$1,735 per year

Board of Education Plan

The Board of Education provides certain post-retirement benefits to retirees through negotiated contracts. The Board of Education does not have a trust fund for the OPEB plan. Eligibility for benefits is as follows:

Teachers

Prior to age 65 retiree and spouse pay full premium minus the Teachers' Retirement Board subsidy (eligible if receiving a retirement allowance from the Teacher's Retirement Board). Post 65, Board of Education pays premium in full for participant only, spouse pays premium minus subsidy. Effective September 1, 2014, Board of Education pays the premium for insurance obtained through the Teachers' Retirement Board (either plan choice) for the participant only. No coverage is offered to spouses. Coverage may be obtained through the Teachers' Retirement Board or other sources.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

Para-professionals

Retiree and spouse pay 50% of premium at age 60 with 15 years of service. Employees hired on or after September 1, 2020 can purchase single coverage only until age 65. No benefits after age 65.

Custodians

No cost to retiree or spouse until age 65 if at least age 60 with 10 years of service at retirement. For those retiring after June 30, 2022, retiree pays cost of retiree medical insurance at the same percentage contributed at the time of retirement. Employees hired on or after January 22, 2020 are eligible for single coverage postretirement. At age 65, retiree and spouse must pay for prescription and dental coverage if elected.

Secretaries

No cost to retiree or spouse if retiree is at least 60, with 10 years of service or age plus service equals 79 at retirement. (Note: Rule of 79 also applies to custodians and cafeteria workers.) If employee was hired after June 30, 2002, retiree and spouse pay same cost share as active employees until age 65. If employee was hired on or after December 31, 2011, retiree and spouse pay full premium until age 65. If hired on or after September 1, 2015, post-65 coverage is for retired employees only.

Cafeteria Workers

No cost to retiree or spouse until age 65 if employee is at least age 60 with 10 years of service at retirement. At age 65, retiree and spouse must pay for prescription and dental coverage if elected. Employees hired on or after October 11, 2006 are eligible for single coverage only postretirement.

Administrators

If retired before age 65, must be receiving retirement allowance from the Teachers' Retirement Board to qualify for benefits. No cost to retiree or spouse if the percentage of premium that the employee pays prior to retirement is less than the Teachers' Retirement Board subsidy. If cost is greater than the subsidy, retiree pays the difference. If subsidy is eliminated, retiree pays percentage of cost in effect at time of retirement. For administrators hired on or after July 1, 2010 who retire before age 65 with ten or more years of service, retiree and spouse pay the full premium minus the Teachers' Retirement Board subsidy until age 65. At age 65, there is no cost to the retiree or spouse for medical insurance. Effective July 1, 2016, the Board of Education pays the premium for insurance obtained through the Teachers' Retirement Board (either plan choice) for the retiree and spouse. Effective July 1, 2019, Board of Education pays for Medicare Advantage Plan coverage obtained through the Teachers' Retirement Board. Employees hired as administrators on or after July 1, 2010 receive retiree only benefit post age 65. Retirement date on or after July 1, 2010, retiree and spouse must pay for dental coverage, regardless of age. Effective July 1, 2016, dental coverage is provided under the Teachers' Retirement Board's plan.

The Board provides Medicare Part A and B supplemental coverage and life insurance for retirees over 65. The State Teachers' Retirement Board provides a \$110 (single) and/or \$220 (two-person) per month per employee (figures not rounded) as a subsidy to offset the post-employment costs until age 65. Life insurance is provided to Union employees as follows: Administrators 100% of salary if hired on or before July 1, 2019; new hires after July 1, 2019 receive \$50,000 to age 65, \$25,000 to age 70, and coverage ends at age 70; teachers 50% of salary; support or non-certified staff is \$15,000 or less. The Life Insurance Amount is fixed and does not get adjusted for inflation, cost of living, or any other index.

(In Thousands)

Investments

Investment Policy

The City's Retiree Healthcare Trust's (OPEB Trust) policy in regard to the allocation of invested assets is established and may be amended by the Retiree Healthcare Trust by a majority vote of its members. It is the policy of the Board of Trustees for the Retiree Healthcare Trust to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of asset classes or mutual funds. The Retiree Healthcare Trust's investment policy aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2020:

Asset Class	Target Allocation
U.S. Large Cap Equity	25.00%
U.S. Mid/Small Cap Equity	17.00%
International Developed Equity	10.00%
International Emerging Market Equity	8.00%
Core Fixed Income	10.00%
High Yield Fixed Income	5.00%
International Fixed Income	5.00%
Inflation Adjusted Fixed Income	5.00%
Cash	3.00%
Commodities	2.00%
Other (REITs, Alternative Assets, etc.)	10.00%
	100.00%

Rate of Return

For the year ended June 30, 2020, the annual money-weighted rate of return on investments, net of investment expense, was 0.86%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the City - City Plan

The City's net OPEB liability was measured as of June 30, 2020. The components of the net OPEB liability of the Town at June 30, 2020 were as follows:

	City of Milford Retiree Medical Benefit Plan
Total OPEB liability	\$ 199,558
Plan fiduciary net position	<u>8,479</u>
Net OPEB Liability	<u><u>\$ 191,079</u></u>
Plan fiduciary net position as a percentage of the total OPEB liability	4.25%

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

Total OPEB Liability of the City - Board of Education Plan

The City's total OPEB liability of \$218,704 was measured as of June 30, 2020 and was determined by an actuarial valuation as of July 1, 2018.

Actuarial Assumptions - City Plan

The total OPEB liability at June 30, 2020 was determined by an actuarial valuation as of July 1, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75%
Salary increases	Age related table
Investment rate of return	3.13%
Healthcare cost trend rates	7.00% for 2018, decreasing 0.5% per year to an ultimate rate of 4.75% for 2023 and later years

Mortality rates for the City were based on the RP-2014 Adjusted to 2006 Total Dataset Mortality Table projected to valuation date with Scale MP-2018. Fire and Police were based on the RP-2014 Adjusted to 2006 Blue Collar Mortality Table projected to valuation date with Scale MP-2018.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2004 - June 30, 2011.

Retirement Assumptions

City Plan

General City: Age 62 or completion of 10 years of service if later, minimum age on valuation date plus one year.

Fire: 20 years of service, minimum age 53, maximum age 60, minimum age on valuation date plus one year.

Police: 20 years of service, minimum age 45, maximum age 60, minimum age on valuation date plus one year.

Actuarial Assumptions and Other Inputs - Board of Education Plan

The total OPEB liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.75%
Salary increases	2.75%, average, including inflation
Discount rate	2.21%
Healthcare cost trend rates	7.00% for 2018, decreasing 0.5% per year to an ultimate rate of 4.75% for 2023 and later years
Retirees' share of benefit-related costs	Varies based on union and hire date - ranges from 50% to 100%

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

The discount rate was based on the 20-year AA municipal bond index fund.

Mortality rates were based on RP-2014 to 2006 Total Dataset Mortality Table projected to valuation date with Scale MP-2018.

A full actuarial experience study has not been completed.

Board of Education

Cafeteria Workers, Custodians, Secretaries: age 50 with 10 years of service, minimum age on valuation date plus one year.

Teachers and Administrators: age 60 with 10 years of service or age 55 with 20 years of service, minimum age on valuation date plus one year.

Para-professionals: age 60 with 15 years of service, minimum age on valuation date plus one year.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset as of June 30, 2020 are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
U.S. Large Cap Equity	4.75%
U.S. Mid/Small Cap Equity	5.50%
International Developed Equity	5.25%
International Emerging Market Equity	6.00%
Core Fixed Income	2.00%
High Yield Fixed Income	3.25%
International Fixed Income	2.50%
Inflation Adjusted Fixed Income	0.25%
Cash	0.25%
Commodities	5.25%
Other (REITs, Alternative Assets, etc.)	5.00%

Discount Rate - City Plan

The discount rate used to measure the total OPEB liability was 3.13%, down from 4.33% in the prior year. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

11. OTHER POSTEMPLOYMENT BENEFITS - CONNECTICUT STATE TEACHERS RETIREMENT PLAN

A. Plan Description

Teachers, principals, superintendents or supervisors engaged in service of public schools plus professional employees at State Schools of higher education are eligible to participate in the Connecticut State Teachers' Retirement System Retiree Health Insurance Plan (TRS-RHIP), a cost sharing multiple-employer defined benefit other post-employment benefit plan administered by the Teachers' Retirement Board (TRB), if they choose to be covered.

Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the TRB. TRS-RHIP issues a publicly available financial report that can be obtained at www.ct.gov/trb.

B. Benefit Provisions (amounts not rounded)

There are two types of the health care benefits offered through the system. Subsidized Local School District Coverage provides a subsidy paid to members still receiving coverage through their former employer and the CTRB Sponsored Medicare Supplement Plans provide coverage for those participating in Medicare but not receiving Subsidized Local School District Coverage.

Any member who is not currently participating in Medicare Parts A & B is eligible to continue health care coverage with their former employer. A subsidy of up to \$110 per month for a retired member plus an additional \$110 per month for a spouse enrolled in a local school district plan is provided to the school district to first offset the retiree's share of the cost of coverage, and any remaining portion is used to offset the district's cost. The subsidy amount is set by statute and has not increased since July 1996. A subsidy amount of \$220 per month may be paid for a retired member, spouse or the surviving spouse of a member who has attained the normal retirement age to participate in Medicare, is not eligible for Part A of Medicare without cost, and contributes at least \$220 per month towards coverage under a local school district plan.

Any member who is currently participating in Medicare Parts A & B is eligible to either continue health care coverage with their former employer, if offered, or enroll in the plan sponsored by the System. If they elect to remain in the plan with their former employer, the same subsidies as above will be paid to offset the cost of coverage.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

If a member participating in Medicare Parts A & B so elects, they may enroll in one of the CTRB Sponsored Medicare Supplement Plans. Effective July 1, 2018, the System added a Medicare Advantage Plan option. Active members, retirees and the State pay equally toward the cost of the basic coverage (medical and prescription drug benefits) under the Medicare Advantage Plan. Retired members who choose to enroll in the Medicare Supplement Plan are responsible for the full difference in the premium cost between the two plans. Additionally, effective July 1, 2018, retired members who cancel their health care coverage or elect to not enroll in a CTRB sponsored health care coverage option must wait two years to enroll.

Survivor Health Care Coverage (amounts not rounded)

Survivors of former employees or retirees remain eligible to participate in the plan and continue to be eligible to receive either the \$110 monthly subsidy or participate in the TRB-Sponsored Medicare Supplement Plans, as long as they do not remarry.

C. Eligibility

Any member who is currently receiving a retirement or disability benefit is eligible to participate in the plan.

Credited Service

One month for each month of service as a teacher in Connecticut public schools, maximum 10 months for each school year. Ten months of credited service constitutes one year of Credited Service. Certain other types of teaching services, State employment, or wartime military service may be purchased prior to retirement if the member pays one-half the cost.

Normal Retirement

Age 60 with 20 years of Credited Service in Connecticut, or 35 years of Credited Service including at least 25 years of service in Connecticut.

Early Retirement

Age 55 with 20 years of Credited Service including 15 years of Connecticut service, or 25 years of Credited Service including 20 years of Connecticut service.

Proratable Retirement

Age 60 with 10 years of Credited Service.

Disability Retirement

No service requirement if incurred in the performance of duty, and 5 years of Credited Service in Connecticut if not incurred in the performance of duty.

Termination of Employment

Ten or more years of Credited Service.

(In Thousands)

D. Contributions (amounts not rounded)

State of Connecticut

Per Connecticut General Statutes Section 10-183z, contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers' Retirement Board and appropriated by the General Assembly. The State contributions are not currently actuarially funded. The State appropriates from the General Fund one third of the annual costs of the Plan. Administrative costs of the Plan are financed by the State. Based upon Chapter 167a, Subsection D of Section 10-183t of the Connecticut statutes, it is assumed the State will pay for any long-term shortfall arising from insufficient active member contributions.

Employer (School Districts)

School District employers are not required to make contributions to the plan.

For the year ended June 30, 2020, the amount of "on-behalf" contributions made by the State was \$443 and is recognized in the General Fund as intergovernmental revenues and education expenditures.

Employees/Retirees

The cost of providing plan benefits is financed on a pay-as-you-go basis as follows: active teachers' pay for one-third of the Plan costs through a contribution of 1.25% of their pensionable salaries, and retired teachers pay for one-third of the Plan costs through monthly premiums, which helps reduce the cost of health insurance for eligible retired members and dependents.

E. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the City reports no amounts for its proportionate share of the net OPEB liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required contribution. The amount recognized by the City as its proportionate share of the net OPEB liability, the related State support and the total portion of the net OPEB liability that was associated with the City was as follows:

City's proportionate share of the net OPEB liability	\$	-
State's proportionate share of the net OPEB liability associated with the City		<u>33,370</u>
Total	\$	<u><u>33,370</u></u>

The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018. At June 30, 2020, the City has no proportionate share of the net OPEB liability.

For the year ended June 30, 2020, the City recognized OPEB expense and revenue of \$(2,442) in Exhibit II.

**CITY OF MILFORD, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020**

(In Thousands)

F. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Health care costs trend rate	
Pre-Medicare	5.95% decreasing to 4.75% by 2025
Medicare	5.00% decreasing to 4.75% by 2028
Salary increases	3.25-6.50%, including inflation
Investment rate of return	3.00%, net of OPEB plan investment expense, including inflation
Year fund net position will be depleted	2019

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2010 - June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the GASB 75 valuation process. Several factors are considered in evaluating the long-term rate of return assumption, including the plan's current asset allocations and a log-normal distribution analysis using the best-estimate ranges of expected future real rates of return (expected return, net investment expense and inflation) for each major asset class. The long-term expected rate of return was determined by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. The plan is 100% invested in U.S. Treasuries (Cash Equivalents) for which the expected 10-Year Geometric Real Rate of Return is (0.41%).

G. Discount Rate

The discount rate used to measure the total OPEB liability was 3.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current member contribution rate and that contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members. No future State contributions were assumed to be made. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be depleted in 2019 and, as a result, the Municipal Bond Index Rate was used in the determination.

H. Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate and the Discount Rate

The City's proportionate share of the net OPEB liability is \$-0- and, therefore, the change in the health care cost trend rate or the discount rate would only impact the amount recorded by the State of Connecticut.

(In Thousands)

I. Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the City has no obligation to contribute to the plan. Detailed information about the Connecticut State Teachers OPEB Plan fiduciary net position is available in the separately issued State of Connecticut Comprehensive Annual Financial Report at www.ct.gov.

14. COMMITMENTS AND CONTINGENCIES (amounts not rounded)

On December 2, 2014, the City of Milford and Milford Power Company, LLC (the MPC) agreed to extend their existing Property Tax Payment Agreement for a term of 10 years. The initial agreement was the result of an assessment appeal of the Grand Lists of 2001, 2002, 2003 and 2004. Originally, the assessment had been \$183,073,530 generating over \$5,000,000 in taxes. (The assessment and the taxes would have significantly decreased in future years due to depreciation of the personal property.) In return, the City accepted scheduled payments in lieu of taxes for the Fiscal Years of 2006 through 2015. The original agreement called for payments to be made in July and January of each fiscal year. The payment schedule was \$1,687,500 for each six-month period from July 2005 through January 2009. Payments were \$1,875,000 for each six-month period from July 2009 through January 2011 and were \$1,750,000 for each six-month period from July 2011 through January 2015.

The new agreement calls for annual payments of \$4,700,000. Payments of \$2,350,000 are to be made in January and July of each year starting on July of 2015 and running through January of 2025. The payments are based on an assessment of \$172,667,000 and a stabilized mill rate of 27.22mills. MPC is up to date with all of its payments.

On June 28, 2010, the City entered into a Property Tax Payment Agreement with GenConn Devon LLC. The City accepted a 30-year payment schedule calling for annual payments in lieu of taxes to be made to the City through May 1, 2040. Payment amounts are as follows: June 30, 2010 - \$ 500,000; May 1, 2011 - \$2,500,000; May 1, 2012 - \$3,000,000; May 1, 2013 through May 1, 2040 - \$2,025,000. GenConn is up to date with all their payments.

There are various lawsuits and claims pending against the City's various Boards and Departments, none of which, individually or in the aggregate, is believed by counsel to be likely to result in a judgment or judgments which would seriously affect the City's financial position.

The City has received state and federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for any expenditures disallowed under the terms of the grant. Based on prior experience, City management believes that such disallowances, if any, will not be material.

15. SUBSEQUENT EVENTS

On October 15, 2020, the City issued \$16,460 in general obligation refunding bonds (Series A) with interest rates varying from 3.00% and 5.00% and maturity date of November 1, 2032. These bonds were issued to refund the following: 2010 Series A refunding bonds, 2012 refunding bonds, 2012 general obligation bonds and 2012 Series B refunding bonds.

On October 21, 2020, the City issued \$22,560 of general obligation bonds (Series B) with an interest rate varying from 2.125% to 5.00% and maturity date of November 1, 2040. In addition, the City issued \$25,525 of bond anticipation notes dated November 3, 2020 maturing November 2, 2021. The bond anticipation notes carry an interest rate of 2.00%.

On November 24, 2020, the City issued \$17,560 of general obligation refunding bonds (Series C) with an interest rate of 5.00% and maturity date of November 1, 2028. These bonds were issued to refinance 2% State of Connecticut Clean Water Fund loan obligations originally used to fund various sewer projects.

(In Thousands)

16. CORONAVIRUS (COVID-19)

On January 30, 2020, the World Health Organization declared the coronavirus to be a public health emergency. On March 10, 2020, the Governor of the State of Connecticut declared a public health emergency and a civil preparedness emergency due to COVID-19.

The City derives a significant portion of its revenues from property taxes. While the City has not experienced any significant increase in the amount of delinquency from its taxpayers, the situation creates uncertainty about the impact of future revenues that might be generated. In addition, at this time, it is uncertain what the effects of the pandemic will be on the City's health care costs, changes in interest rates, investment valuation and the future federal or state fiscal relief.

Notes to Schedule

Valuation date: July, 1 2019
Measurement date: June 30, 2020

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age Method, level percentage of salary
Amortization method	None
Remaining amortization period	N/A
Asset valuation method	5-year smoothed market
Inflation	2.75%
Salary increases	Age related table
Investment rate of return	7.50%
Retirement age	Age related table
Mortality	Non-Disabled - Based on RP-2014 adjusted to 2006 Total Dataset Mortality Table, projected to the valuation date with Scale MP-2019 Disabled - Based on RP-2014 adjusted to 2006 Disabled Mortality Table, projected to the valuation date with Scale MP-2019

(1) Actuarially Determined Contributions prior to fiscal year ending June 30, 2017 is based on the Annual Required Contribution (ARC) calculated in accordance with GASB No. 45.

Notes to Schedule

Valuation date: July, 1 2018
Measurement date: June 30, 2020

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	None
Amortization period	N/A
Asset valuation method	Plan assets equal the market value of assets
Inflation	2.75%
Healthcare cost trend rates	7.00% initial, decreasing 0.5% per year to an ultimate rate of 4.75%
Salary increases	Age related table
Investment rate of return	3.13%: Prior: 4.33%
Retirement age	In the 2018 actuarial valuation, expected retirement ages of general employees were adjusted to more closely reflect actual experience.
Mortality	City: RP-2014 Adjusted to 2006 Total Dataset Mortality Table projected to valuation date with Scale MP-2018. Fire and Police: RP-2014 Adjusted to 2006 Blue Collar Mortality Table projected to valuation date with Scale MP-2018.

Notes to Schedule

Changes in benefit terms	The Plan was amended by the Board, effective January 1, 2019, during the September 12, 2018 meeting.
Changes of assumptions	Based on the procedure described in GASB 74, the discount rate used to measure Plan obligations for financial accounting purposes as of June 30, 2019 was updated to equal the Municipal Bond Index Rate of 3.50% as of June 30, 2019.
	Expected annual per capita claims costs were updated to better reflect anticipated medical and prescription drug claim experience both before and after the plan change that became effective on July 1, 2019.
	The expected rate of inflation was decreased, and the real wage growth assumption was increased.
Actuarial cost method	Entry age normal (level percent of pay)
Amortization method	Level percent of pay over an open period
Remaining amortization period	30 years
Asset valuation method	Market value of assets
Investment rate of return	3.00%, net of investment related expense including price inflation
Price inflation	2.75%

Statistical Section

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- *Financial trends information* is intended to assist users in understanding and assessing how financial position has changed over time.
- *Revenue capacity information* is intended to assist users in understanding and assessing the factors affecting the ability to generate *own-source revenues* (property taxes, charges for services, etc.).
- *Debt capacity information* is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- *Demographic and economic information* is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- *Operating information* is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.

Notes:

(1) Does not include supplemental motor vehicles.

(2) Beginning with the Grand List of October 1, 1991, Connecticut General Statutes Section 12-81 (72) exempts new manufacturing equipment from property taxation by municipalities. The State of Connecticut will directly reimburse the City for 60% of the foregone taxes for Grand List 2008; the reimbursement is scheduled to be 80% for Grand List Year 2009; the reimbursement is scheduled to be 100% for the Grand List Year 2010 and the Grand List Year 2011. The program was phased out for the Grand List Year 2012.

(3) Revaluation Grand List values shown above are phase-in values for GL Years 2006, 2007 and 2008. The phase in was suspended by the Board of Aldermen after two years. Therefore GL Years 2008 - 2010 will only have 40% of the increase value reflected instead of values increasing to 100%.

(4) See disclosure about Property Tax Agreements in the Contingent Liability Note in the Financial Statements.
