Open Space and Recreation	,																					
Continue to acquire properties that meet the desirable open space characteristics defined by this chapter and supported by local and state open	OSAC, CC	As needed and as resourses allow.																				
Acquire properties or obtain conservation easements along the City's Greenbelts and Greenways.	OSAC, PZB through project review	As opportunities allow.																				
3. Enact an Open Space Tax Credit Program per PA-490.	BOA, TAO, Finance	State program-through tax assessor																1				
4. Create a permanent Open Space Land Manager position	OSAC, REC	Done, Steven Johnson												<del></del>				—	$\perp \perp$		$\perp$	_
5. Create an open space inventory and assessment	OSAC, IWAO, REC	Done. Diffenet types to be provided by Steven Johnson																	$\perp \perp$		$\perp$	
6. Develop a Property Management Plan for Passive Open Space areas such as a schedule for trail maintenance, etc.	CC, REC, PBR	No, as needed																				
7. Develop a Property Improvement Plan for Passive Open Space areas	CC, REC, PBR	As needed																				
Develop a Restoration Plan for passive open space areas where appropriate	IWA, IWAO, CC, REC	As needed when resourese are availiable																				
<ol> <li>Create public education tools such as mapping, trail head markings, and educational displays for passive open space properties</li> </ol>	CC, OSAC, GIS, REC, Volunteers, Local Schools	Done and continues. Trail maps provided through SCRCOG																				
10. Update the Zoning Map to accurately reflect open space parcels including privately owned open space subdivision set-asides.	PZB, PZS, GIS	Done where appropriate. Parcel sized zones are not appropriate.																				
11. Institute the recommendations and improvements of the Eisenhower Park Plan	PBR, REC, IWA, IWAO, PZS	Some elements have been inplemented such as the splash pad.																				
12. Review a reconfiguration plan for Fowler Field for possible inclusion of a greenway along the river and re-routing the boat ramp roadway, with future consideration of field reconfiguration if commuter parking is relocated.	PBR, REC, PZS																					
13. Assess additional city-owned or acquired properties to determine whether additional fields can be created to accommodate additional playing fields, particularly for lacrosse.																						
14. Add lighting to playing fields where appropriate to maximize usage of existing park properties.	PBR, REC	Done																				
15. Assess where dog parks may be added on vacant city-owned properties or at under-programmed park areas, particularly in dense residential neighborhoods.	PBR, REC, AC, PZS, GIS, PW	Done. Resouces put into new Eisenhower Park Dog facilities.
