

Article V – Supplementary Regulations

5.8.13.2 Non Residential Construction: New construction and substantial improvement of any commercial, industrial, or other nonresidential structure shall either have the lowest floor, including basement, elevated to the level of the Design Flood Elevation (DFE); or, together with attendant utility and sanitary facilities, shall:

- (1) Be flood-proofed so that below the Design Flood Elevation (DFE) the structure is watertight with walls substantially impermeable to the passage of water.

Effective October 29, 2018
