

**Town of Milford Eight Year Vegetation Management Street Schedule provided by  
The United Illuminating Company as of 3/31/2014**

The attached table identifies the location (street address) and year for UI's line clearance schedule in Milford. The streets are listed alphabetically. The address range is listed to the left of the street name. To determine which year tree work will be performed in your neighborhood, find your street and your address within the range. The planned year for UI to evaluate the vegetation requirements in front of your home is listed to the right.

As the time for UI to begin planning work on your street and gaining consent to perform the work grows nearer, UI will send out mail notifications to all customers as a "heads up" that we are coming. For those properties where tree work is necessary, a Work Planner will perform a personal site visit. The person who comes to your home will discuss the work with you and request your consent if the tree is on your property. If the tree is on or overhangs the public right-of-way, part of or all of the tree may be under the care and control of the town tree warden and tree work permission must be obtained by UI from the tree warden.

You, as a home owner, also have the right to object to work being performed on public trees. Our Work Planner will help you with this process. Your objection will be sent to the tree warden who will make a decision on whether or not the tree work is necessary. If you are unhappy with the decision, you also have the right to appeal the tree warden's decision to the Connecticut Public Utilities Regulatory Authority (PURA). UI also has the right to appeal to PURA.

**Important Note on the list below:**

1. This schedule is subject to change due to a number of factors such as weather and changes to the way a circuit runs along the streets. If you want to know if you are still on the same schedule please contact UI. UI will send updates when major changes occur.
2. If your street is listed twice your address may fall into two or more of the street listings. This is due to the circuits changing along the same street (this is not typical but may happen). If you notice this please contact UI to find out what is the actual year for your address.
3. If your service comes from an underground source your address may not be listed
4. Even if there are no trees in front of your home, UI will be reviewing your area as we need to look at all of the above ground wire on the electric system

To contact UI dial 1-800-7CALL-UI and ask to have a request for information put in to the Vegetation Management Team

| Town    | Start Address | End Address | STREET              | Trim Year | Priority Facility |
